

# WARRANTY & REGISTRATION.

Dear Homeowner,

To qualify for Trane's extended Registered Limited Warranty\*, product registration is required within 60 days after installation or, in the case of a newly constructed home, within 60 days after the original purchaser closing date. If the product is not registered within 60 days after installation or the original purchaser's closing date, Trane's Base Limited Warranty\* terms will apply.

Registration is quick and easy. To do so, gather the information needed, including the product serial number, product model number and the date of installation or original purchaser's closing date for each of your new Trane products. If you don't have this information handy on your sales invoice, your installing dealer can provide it and help with your registration.

Registration can be completed online or by phone at [www.trane.com/residential](http://www.trane.com/residential) or call 855-260-2975.

## **SELLING YOUR HOUSE? TRANSFER YOUR WARRANTY.**

Both the Base Limited Warranty and Registered Limited Warranty for your Trane product are only valid for the original purchaser of the home unless steps are taken to properly transfer the warranty. Transferability restrictions may vary by state. For more information on this option, please call 855-260-2975.

*It's Hard To Stop A Trane.®*
